**Remarks**

Enclosed is a clean copy along with a marked-up version of the application showing the changes made by this amendment, including drawings in response to the office action dated April 2, 2004.

The drawings are printed directly on 8 ½ x 11 paper pursuant to the recently enforced drawing requirements. It must be recognized, of course, that the digital reproductions of photographs introduce additional variables into the sharpness and the integrity of the coloration of the plant and its component parts.

The examiner has raised a number of objections to the specification, most of which have been handled by appropriate amendment of the application.

Applicant respectfully submits that this amendment now placed the application in condition for immediate allowance. Accordingly, the examiner is requested to issue a notice of allowance consistent herewith. However, if there are minor issues yet to be resolved, the examiner is encouraged to contact the undersigned either by telephone or by email.

Respectfully submitted,

Date: June 17, 2004
